Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

**8.3 Individual protection measures, such as personal protective equipment (PPE)**

**Eye/face protection**

Not normally required. Safety glasses are recommended if eye exposure risk exists during product handling/processing.

**Skin protection**

Not normally required. Protective gloves, such as nitrile gloves, are recommended in case of prolonged/repeated exposure during product handling/processing.

**Body protection**

The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

**Respiratory protection**

Provide adequate ventilation Respiratory protection is not required under normal use conditions.
